One day workshop on the philosophy of Eric Olson

- 10:00-10:40 Professor Eric Olson (University of Sheffield)
The Remnant-person problem
Abstract: Animalism, the view that we are

animals, appears to have the absurd implication that removing your brain from your head would create a “remnant person”, who would be destroyed when put into a new head. The problem is serious and has no really satisfying solution. But it has nothing to do with animalism as such, and afflicts animalism’s main rival in equal measure.
